

Gosford Private Maternity Services

We're proud to be the only private maternity service on the Central Coast with an exemplary paediatric service

Gosford Private Maternity Service understands that this is a special time in your life, that's why we care to make the birth of your child as wonderful as possible.

Your stay includes daily visits from one or more of our paediatric consultants who are part of the Gosford Private Paediatric Specialist Network (GPPSN). These consultations will occur bedside with you and allow you to ask many questions and receive advice from some of the best Australian Paediatricians and Neonatologists. The out of pocket expense will be \$100 however your bill will outline all visits which will be claimable back from medicare. The invoice will come from the Doctors Billing Agency.

GPPSN provides all parents with a comprehensive and invaluable service to ensure the health and wellbeing of your newborn. In the event your baby is admitted to the Special Care Nursery, the cost is claimed from your healthfund.

Please claim your rebates from Medicare or your Health Insurance once you have registered your baby. We recommend to add your baby to your healthfund policy as soon as they are born.

May we take this opportunity to congratulate you on your pregnancy and wish you and your family all the best in the future.

I have read and understood the \$100 out of pocket expense incurred through GPPSN.
